This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor. The components are numbered 1 through 13:

- 1**: A central cylindrical component with a threaded section and a flange.
- 2**: A hexagonal nut or flange that fits onto the threaded section of component 1.
- 3**: A large, ribbed circular component, possibly a diaphragm or impeller, that fits onto the end of component 1.
- 4**: A flat, rectangular plate with multiple mounting holes, likely a base or support plate.
- 5**: A small, L-shaped bracket or clip that fits into a slot on the base plate (4).
- 6**: A small, rectangular component with a central slot, possibly a valve or a sensor.
- 7**: A curved, flexible component, likely a hose or a bellows, that connects to the side of the main assembly.
- 8**: A complex, rectangular housing or frame that serves as the main structural support for the internal components.
- 9**: A large, circular end cap or cover that fits onto the front of the assembly.
- 10**: A long, thin rod or shaft that passes through the center of the assembly, connecting the diaphragm (3) to the internal mechanism.
- 11**: A small, circular component that fits onto the end of the rod (10).
- 12**: A circular flange or seal that fits onto the rod (10) near the base.
- 13**: A small, curved component that fits into a slot on the base plate (4).
